

HARNISH DRIVE

Construction Project

Construction Update: October 30, 2021

The Harnish Drive Construction Project is 90% complete!

Last week, the contractor installed the flashing beacons at the main crosswalk by High Hill Park & Nature Preserve.

The project is substantially complete - with the brunt of the work finished. Village staff will work with the contractor to develop a punch list of items that need to be addressed or adjusted.

Project Overview

As part of the reconstruction of Harnish Drive from Randall Road to Hanson Road, the Village will repair and resurface roadways, as well as improve drainage, patch driveway and curbs and address ADA improvements such as striping of pedestrian crosswalks. The project includes improvements to Harnish Drive, Chatham Circle, Flora Drive, Sutcliff Court, Sandpiper Court and Fairfield Lane.
